PROGRAMMING THE REMOTE CONTROL

1. Locate the Smart/Learn button.
2. Press and immediately release the learn button. The learn LED will glow steadily for 30 seconds. Within 30 seconds...
3. Press and hold the button on the remote control that you wish to use.

TO CONTROL THE GARAGE DOOR OPENER LIGHTS

This feature is only available on garage door openers equipped with a multi-function door control and a remote control with more than one button. Not available with universal receiver.

With Security+® remote controls, a remote control button can be programmed to operate the garage door opener lights without opening the door.

1. With the door closed, press and hold the remote control button that you want to control the light.
2. Press and hold the light button on the door control.
3. Press and hold the lock button on the door control.

TEST BY PRESSING THE REMOTE CONTROL BUTTON. THE GARAGE DOOR OPENER LIGHTS SHOULD TURN ON OR OFF BUT THE DOOR SHOULD NOT MOVE.

TO ERASE ALL CODES FROM MEMORY

When deactivating any unwanted remote control code, all previous codes will be erased.

1. Press and hold the learn button on garage door opener or other product until the learn LED goes out (approximately 6 seconds). All previous codes are now erased. Reprogram each remote control you wish to use.
THE REMOTE CONTROL BATTERY

The lithium battery should produce power for up to 5 years. To replace battery:

1. Use the visor clip or screwdriver to pry open the cover.
2. Remove the old battery. Dispose of old batteries properly.
3. Insert replacement batteries positive side up. Replace the batteries with only 3V2032 coin cell batteries.
4. Replace cover.

Premium Remote Control Only
The 3V2016 lithium batteries for the opener and LEDs (marked “LED and Opener Battery”) should last up to 5 years. The 3V2450 lithium battery for the proximity lighting (marked “Proximity Battery”) should last 1-2 years. To replace the batteries:

1. Remove the two screws and open the remote control housing.
2. Slide the old batteries out. Dispose of old batteries properly.
3. Insert replacement batteries positive side up. Replace the batteries with only 3V2016 or 3V2450 coin cell batteries.
4. Replace screws.

HOW TO USE THE REMOTE CONTROL

Press and hold the button down until the door or gate starts to move. The remote control will operate the garage door up to 3 car lengths away on typical installations. Installations and conditions vary, contact an installing dealer for more information.

3-BUTTON REMOTE CONTROLS

Additional buttons on any Security® remote control or mini-remote control can be programmed to operate other Security® garage door openers, light controls, gate operators or access control systems.
